Pacific Silver Lining is the transitional legal entity for the newly
established US-China Geriatric and Long Term Care Association
before it obtains its non for profit status.

OUR TEAM

Our executive team and advisory board consist of compassionate, visionary and experienced gerontological and nursing professionals, U.S. and China national leaders in health and long term care industry and government, policy experts, researchers, and international professional training experts with multi-linguistic capabilities from national organizations, academics, social organizations and industry in both China and US.

WHAT WE DO

- * Conducting training sessions and forums in China and U.S.
- * Coordinating advanced graduate degree education in gerontology
- * Organizing and hosting study tours for Chinese associates to learn within U.S. senior care facilities
- * Consulting for U.S.companies with linguistic, professional, and cultural competencies in elder care and education.
- * Facilitating government relations

"One of biggest challenge in China's senior care sector is the lack of capacity in healthcare around the accessibility and availability of trained professionals"

Chen, L www.healthintelasia.com
July 8, 2015

OUR MISSION

The mission of U.S.-China Geriatric and Long Term Care Association is to promote learning of the best U.S. evidenced-based long term care models through training and education to address the shortage of professional elder care workforce and management personnel in China.

HOW WELL WE DO

Lily Chen is a dynamic committed nursing professional who has deep expertise in the specialty care of older adults both as a clinician and program planner. Her bicultural and bilingual capacity in Mandarin and Cantonese bring a special set of assets as programs and policy needs experience significant growth and exchange between the United States and China. Her dedication to assuring highly effective communication of both the medical and social aspects of aging makes her uniquely qualified to lead efforts at furthering important cross-cultural innovation.

-Jennie Chin Hansen,
CEO, American Geriatric Society

EXPERIENCES

May, 2015: Co-organized "Healthy Aging and Medical Innovation forum with China National Health Research Development Center, Ministry of Health. Dr. Cheryl Phillips, SVP of LeadingAge, and Grace Li, COO On Lok Lifeways presented at the forum about PACE model.

May, 2014 Coordinated an 11 member US delegation led by Illinois Department on Aging (IDoA) Director Dr. John Holton who spoke at the main forum of the third China International Senior Service Expo (CISSE) in Beijing's China Convention Center. MOU was signed between IDoA and China Association of Social Welfare (CASW).
